

BUYER INSTRUCTION GUIDE

Access your design

1. Download the files from your Etsy order.
2. Open the Canva Template Links PDF and click the link for your template.
3. Sign in to Canva or make a free account.
4. Select Use template to create your own editable copy.

If the page is view-only, sign in first and reopen the link. If Use template still is not available, contact the seller on Etsy with your order number.

Edit your carousel

Replace a photo: click the photo, choose Replace, upload an image, and adjust the crop.

Edit text: double-click any text and type. Keep a similar amount of copy for the cleanest layout.

Change colours or details: click a background, card, shape, or label to adjust it in Canva. Decorative elements can be moved or deleted to suit your brand.

Download for Instagram

In Canva, choose Share > Download > PNG > All pages. Download and post the images in page order as an Instagram carousel.

Usage and support

Colours can differ slightly across devices.

You may use your edited final posts for your business or personal content. Do not resell, share, redistribute, or claim the template itself as your own.

Digital products are not refundable. For an access issue, message the seller through Etsy with your order number, template name, and a screenshot of the error.
