

Soft iOS Photo-Diary

Carousel Kit

8 editable Instagram carousel sets • 70 lifestyle stickers • Canva

BEFORE YOU BEGIN

This is a digital Canva product. You need a free Canva account and a desktop browser for the smoothest editing experience.

1. DUPLICATE THE CAROUSEL KIT

Open the creator master design: <https://www.canva.com/d/9E0ZzIrlag4J71E>. Before selling, replace this master-design URL with your Canva Template Link (Share → Template link) so every buyer receives an independent copy.

2. MAKE IT YOURS

Replace the sample photos, headline, body copy and small labels. Every kit page is 1080 × 1350 px (Instagram 4:5). Keep key text inside the safe margin.

3. USE THE STICKER LIBRARY

Open the sticker library: https://www.canva.com/d/PoPQDoUGYw3rU_p. Copy any sticker or grouped UI card into your carousel. The kit includes your 30 lifestyle PNG stickers plus 40 soft iOS-style UI, frame and doodle assets.

4. EXPORT FOR INSTAGRAM

Download pages as PNG at 1×. Upload the five pages from a set in their shown order. Use the cover as page 1.

LICENCE

Commercial use is allowed for the purchaser's finished social media content. You may not resell, redistribute, sublicense, share, or turn the editable templates or stickers into a competing product.
